

Model Icebreaker Oden 03.2015

A little update of the building up progress. Not very much.

What's new since 09.2014?

Deck Nr. 4, I have sandblasted and brushed with primer. All the little parts are even ready for sandblasting and brushing:

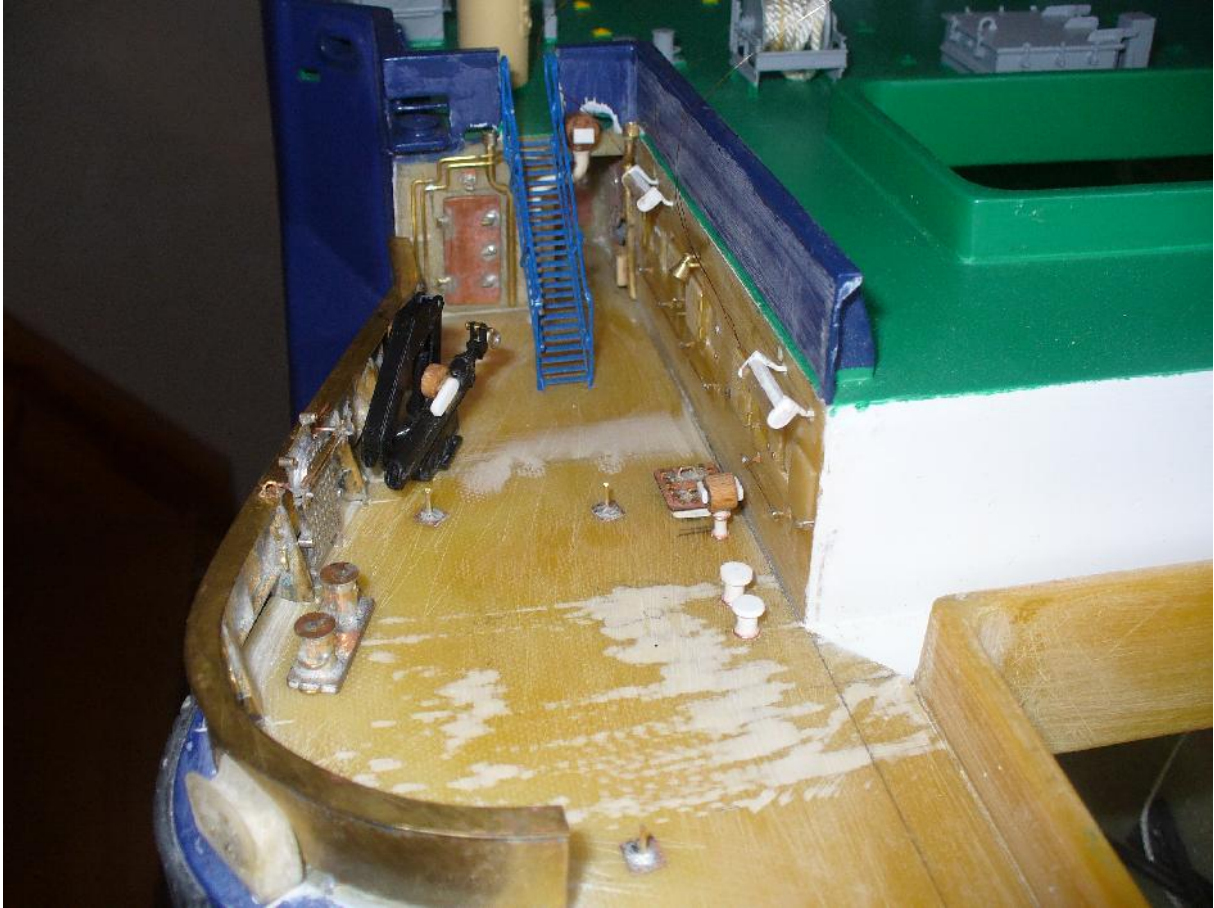

I detailed the both “Turning reamer”:

Portside:

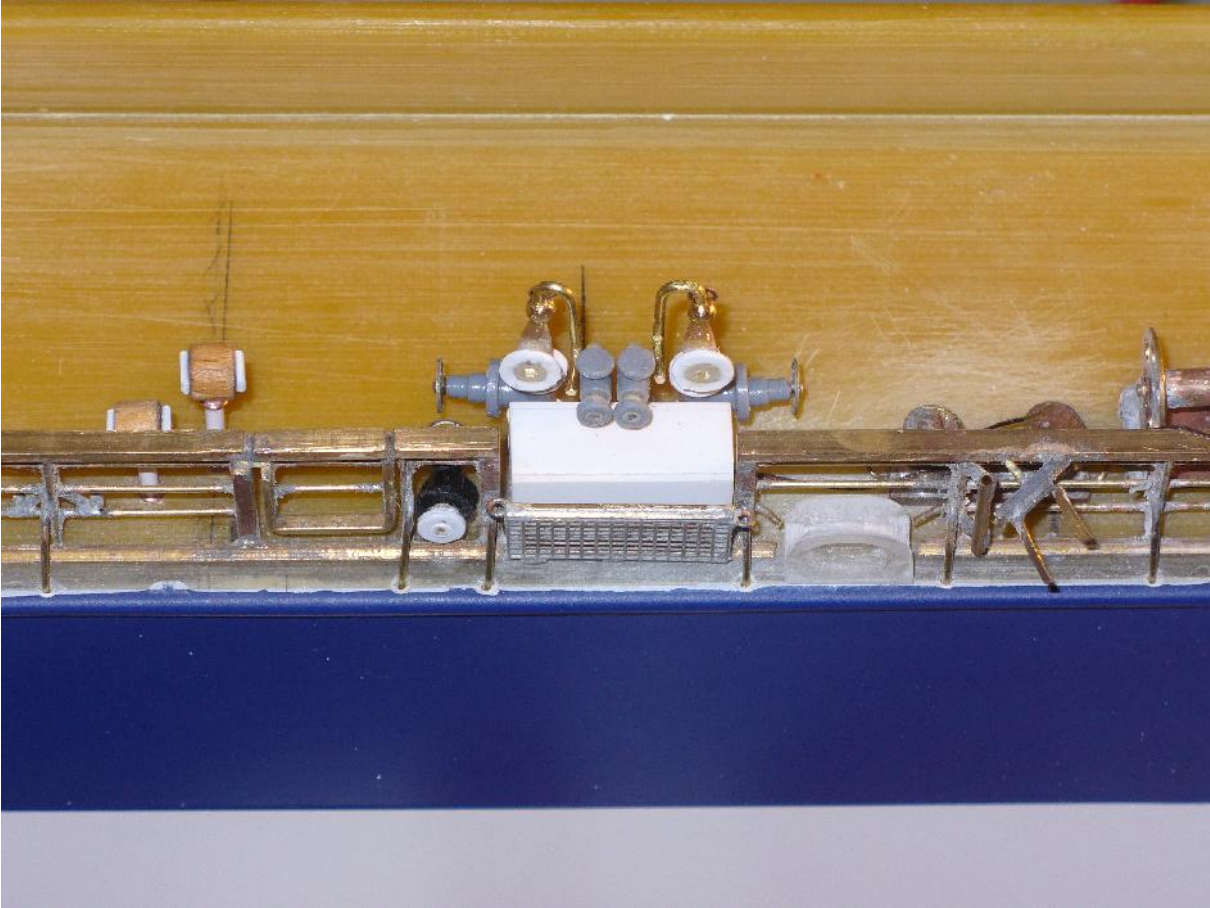

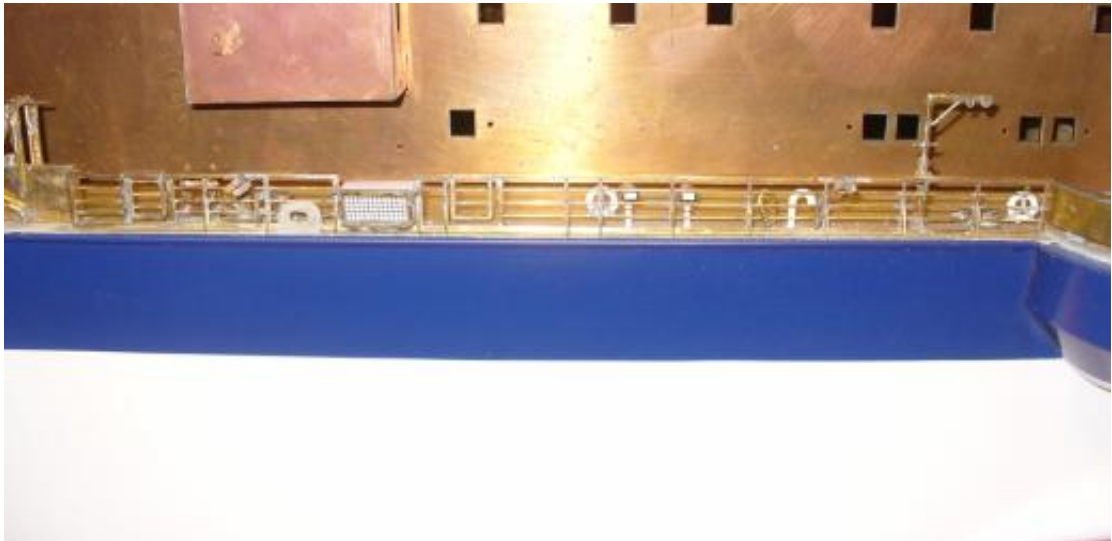

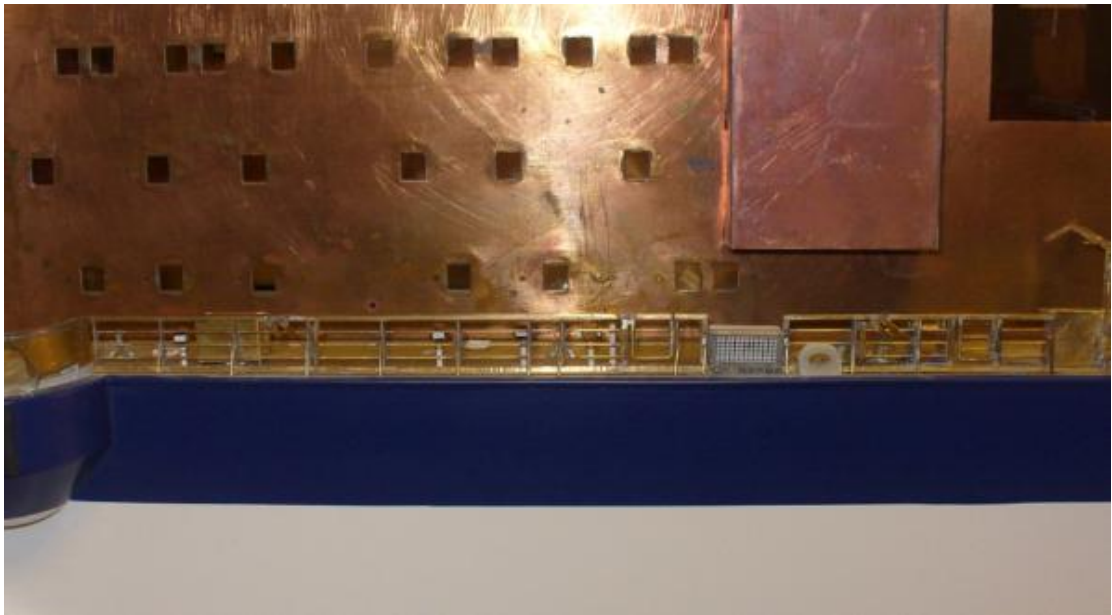

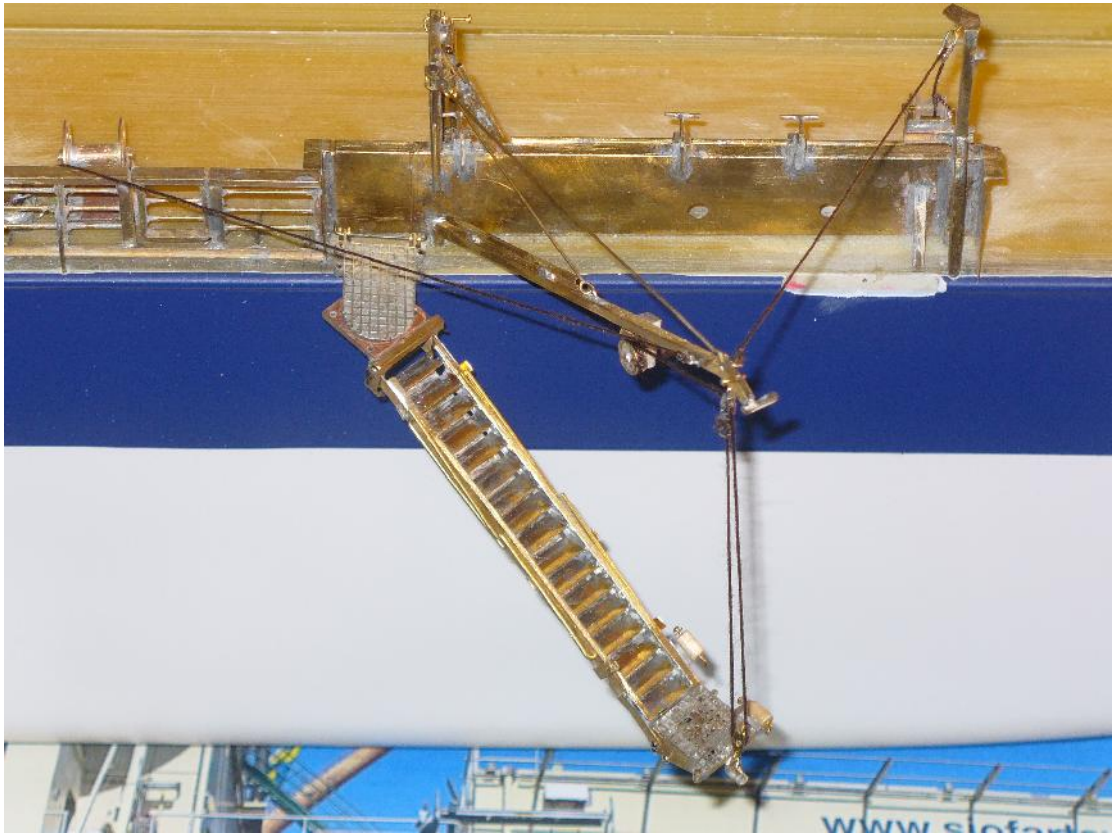

Starboard:

Almost the complete railing is soldered together in Brass material, the both gangways with their storings are done:

As I said, not very much! I still have to solder 30 cm, than the railing is completed. After this, the maindeck must be detailed.

Best regards,  
Peter
